

ribbon crimp technique

This finding is the perfect ending for a piece strung on a ribbon or two.

1. Use a toothpick to add a thin line of superglue on the inside of the ribbon crimp.

2. Place the ribbon inside the crimp and let rest until the glue sets.

3. Use chain-nose pliers to firmly squeeze the sides of the crimp together.

4. Use a jump ring to attach a clasp, and repeat on the other side.
